Group I: Claims 1-18, directed to a sample detection apparatus, flow cytometer or method of detecting fluorescent intensity independent of anisotropic radiation emission, and

Group II: Claim 19, directed to a method for determining scattered radiation passing through a filter.

Applicants elect the invention of Group I, claims 1-18, for prosecution on the merits. Applicants reserve the right to pursue prosecution of the non-elected claim in a later filed application claiming the benefit of priority of the above-identified Application.

CONCLUSION

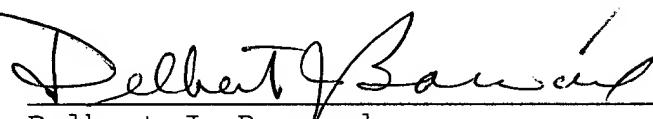

In light of the Amendments and Remarks herein,
Applicants submit that the claims are now in condition for
allowance and respectfully request a notice to this effect.
Should there be any questions the Examiner is invited to call the
undersigned attorney.

Respectfully submitted,

CHARLES L. ASBURY et al.
